## Contents

List of authors .....	3
Summary .....	5
Foreword .....	7
1 Cold Metal Transfer – Classification of the welding process.....	9
1.1 Limitations compared with conventional welding processes.....	10
1.2 Power range of the CMT arc .....	11
1.3 CMT process corrections .....	12
1.4 Components of CMT welding .....	13
2 Advantages of the CMT welding process.....	17
2.1 Start and end of welding .....	17
2.2 Process stability .....	18
2.3 Positional welding .....	20
2.4 Spatter formation.....	21
2.5 CMT welding with 100% CO <sub>2</sub> as shielding gas .....	22
2.6 Performance and efficiency comparison .....	24
2.7 Emissions .....	25
2.8 Cost-effectiveness.....	26
3 Process variants and process corrections.....	29
3.1 CMT Synchronpuls .....	29
3.2 CMT Pulse .....	31
3.3 CMT Advanced.....	34
3.4 CMT Pulse Advanced .....	37
3.5 CMT Twin .....	38
3.6 CMT Pin.....	43
3.7 CMT Print .....	46
4 CMT welding of joints with different materials.....	49
4.1 Welding of steel.....	49
4.2 Welding of austenitic CrNi steels.....	56
4.3 Welding of aluminium alloys .....	59
4.4 Welding of magnesium and its alloys .....	65
4.5 Welding of zinc .....	67

5	CMT brazing .....	69
5.1	Galvanised steel sheets with copper brazing.....	69
5.2	Brazing of steel with aluminium.....	72
5.3	Brazing and welding of copper.....	75
6	CMT deposition welding .....	79
6.1	Cladding.....	79
6.2	CMT Pin .....	83
6.3	CMT Print .....	86
7	CMT further developments .....	87
	Glossary .....	89
	References .....	91
	Index .....	95
