Publisher:

The German Welding Society (DVS)

TWI – The Welding Institute, Cambridge/Großbritannien

IS – Institute de Soudure, Paris/Frankreich

ISSN 1612-3433

Content:

The English-language WELDING AND CUTTING is an international trade journal which is editorially oriented to welding, cutting and brazing/soldering technology, including the numerous peripheral areas. It includes regular and comprehensive reports from industry, science and the practice of the welding technology sector, takes up not only new developments but also economic questions and thus serves as an important source of information which is used by an international expert public throughout the world.

Frequency: 6 x per annum

Editorial Features:

- Research, Development and Application
- Welding, Cutting, Soldering, Brazing, Bonding etc.
- Materials (Ferrous and Non-ferrous Metals, Plastics, Base and Filler Materials and Ancillaries)
- Design
- Cost Calculations and Production in the Manufacture of Steel Structures, Vessels, Plants Vehicles and Machinery
- Welding Machines including Robots and Control Systems
- Materials Testing (Destructive and Non-Destructive)
- Health and Safety at Work; Training

Publisher: The German Welding Society (DVS)

DER PRAKTIKER is the trade journal for all the fields of joining technology application and fabrication – above all for small and medium-sized enterprises and skilled trade businesses. From practice for practice, the welding, brazing/soldering, adhesive bonding and coating processes are examined in greater detail in application-oriented specialist articles. Month in month out, the reader learns everything important from the following sections: industry and skilled trades, quality management and standardisation, health and safety and environmental protection as well as legal questions and judgements. "DER PRAKTIKER" is thus essential reading for everybody dealing with joining technology in daily operational practice.

Frequency: 12 x per annum

Permanent sections:

Industry and handicrafts (brief reports and presentations of products and services), safety at work and environmental protection, publications (discussions about books and software), opinions (magazines and comments), legal questions and judgements, tips and remarks (tips for welders and questions relating to corrosion) and quality management/standardisation. Information from the society: society communications of the DVS, news about people and anniversaries and DVS Forum (announcements of dates).
