

Conference on Joining Plastics

Lectures of the 2nd International Conference
taking place in Düsseldorf on 2 November 2010

Joint Event by
The Welding Institute (TWI), Cambridge
Welding & Joining Society (WJS), Cambridge
German Welding Society (DVS), Düsseldorf

Table of contents

Preface

Mass Production

U. A. Russek, Köln/D	
Laser welding of plastics – A „Key“ technology	1
I. A. Jones, Cambridge/GB, and V. Loyo-Maldonado, North Brunswick/USA	
Comparison of laser welding methods for microfluidic devices	6
A. Patil, Inchinnan/GB, I. A. Jones, Cambridge/GB, and T. R. Ashton, Inchinnan/GB	
New manufacturing methods for vascular grafts using laser welding and laser cutting techniques	13
T. Hermann, Karlsbad/D	
Ultrasonic packaging sealing	23
R. Wise, Cambridge/GB	
Initiation of ultrasonic welding in amorphous thermoplastic polymers	29
D. Kortmann, Bielefeld/D	
Hot gas welding of polyamides	44
S. M. Chookazian, Norwood, NJ/USA	
What is new in induction welding via the Emabond® process	55
T. Beiß, Neuffen/D, and Y. Kuriykov, Ludwigshafen/D	
Infrared welding of engineering plastics via short-wavelength IR emitters	61
C. Vacogne, C. Worrall, R. Wise and A. Kapadia, Cambridge/GB	
Welding and forming of PEEK films and sheets	68
E. Moritzer, Paderborn/D	
Structural glueing of plastic parts	82

Fabrication

S. Beech, Linlithgow/GB, J. Grieser, Roetgen/D, D. Lowe, Manchester/GB, and P. Vanspeybroeck, Melle/B	
Harmonisation of polyethylene pipe butt fusion procedures and test methods	84
J. Hessel, Roetgen/D	
Time-saving test procedures to evaluate the long-term creep rupture behaviour of welded polyolefines	91
S. Gardiner, Durham/USA	
Best practices for solvent welding thermoplastic piping: PVC, CPVC and ABS	94
M. R. Gude, Móstoles/E, E. J. C. Kellar and F. Salamat-Zadeh, Cambridge/GB	
A reassessment of titanium pre-treatments for adhesive bonding to composites	99
M. Kwak, Middlesbrough/GB	
The joining of polymeric composites using the latest in microwave processing technology	104
T. Knöß, Mörfelden-Walldorf/D	
Electrically conductive plastic pipelines for utilisation in explosion hazard areas	111
T. Hutton, Wetmore, CO/USA	
Status of thermoplastic welding and welder qualification in North America	116
B. Momberg, Minden/D	
A new application to manufacture tanks and apparatus PE 100-RC	119
List of authors	123
