

# **Aluminium Brazing**

Lectures of the 9<sup>th</sup> International Congress  
taking place in Düsseldorf on 19<sup>th</sup> to 21<sup>st</sup> April 2016

Organiser:  
DVS – German Welding Society, Düsseldorf

## Table of contents

Preface

### Opening Presentation

M.Türpe and B. Grünenwald, Stuttgart/DE

Aluminium brazing – A special case of brazing? ..... 1

### Materials

L. Aubanel, P. Da Silva, J. Lanceleur, T. Colas, M. Philippe, C. Casenave, La Suze-sur-Sarthe/FR,  
A.G. Noumet-Villemiane and V. Renault, La Verrière/FR

Silicon coating impact on material structure and corrosion resistance of aluminum  
extruded tubes used for brazed heat exchangers ..... 5

E. Senel, J. H. Nordlien, Karmøy/NO, and A. Espedal, Tønder/DK

Effect of brazing conditions on the corrosion properties of ZnSilflux coated microchannel  
tubes ..... 10

J. H. Nordlien, Karmøy/NO, D. Ellerbrock, Rockledge/US, E. Senel, Karmøy/NO, and A. Espedal, Tønder/DK

Improving the consistency of corrosion testing and interpretation of corrosion results ..... 15

J. Paturaud, Villeurbanne/FR and La Verrière/FR, J. Y. Buffiere, D. Fabregue, Villeurbanne/FR,  
A. G. Villemiane, La Verrière/FR, and M. Perrier, Villeurbanne/FR and Voreppe/FR

Fatigue damage mechanisms of thin brazed aluminium alloys used in car heat exchangers .. 19

A. Schlegel, M. Cornejo, Aachen/DE, B. Jacoby, S. Kirkham and A. Bürger, Koblenz/DE

Development of low melting clad for heat exchanger production ..... 24

L. Löchte, N. Sucke, I. Boyraz, K. Horn, M. Götz and R. Breindl, Velbert/DE

Zn – angel or devil, part II: May the Zn be with you ... ..... 28

M. Mrotzek, Hamburg/DE, H. Janssen, V. Saß, Bonn/DE, and S. Schlüter, Grevenbroich/DE

Hydro aluminium – multi-layer materials for EURO6 heat exchanger applications ..... 34

### Equipment

M. Stempniewicz and P. Skarbiński, Świebodzin/PL

Upgrading outdated CAB equipment to meet today's process requirements and standards:  
an alternative to new investments ..... 38

M. R. McQuirk, Wixom/US

Brand new state of the art CAAB brazing line delivering 35% overall energy savings ..... 44

## Research and Development

E. Hofmann, J. Zschetzsche and U. Füssel, Dresden/DE	
Influence of preceding production steps on brazeability of aluminium .....	49
S. Weis, M. Elßner, V. Fedorov, S. Habisch, G. Wagner and P. Mayr, Chemnitz/DE	
Innovative joining technologies for mixed joints of stainless steel and aluminum or aluminum based composites .....	54
P. Khazan, Hamburg/DE, T. Radel and P. Woizeschke, Bremen/DE	
Numerical simulation of the distortion in conventional laser and fluxless laser-plasma brazing of aluminum using Simufact.welding .....	60
S. Szemkus, R. Kahlenberg and S. Jahn, Jena/DE	
State of the art for additive manufacturing of aluminium alloys .....	66
M. H. Biglari, R. P. J. Denteneer, L. C. P. Krassenburg, J. H. G. Brom, M. I. Menninga, N. J. A. van Veen and A. A. Kodentsov, Son/NL	
Soldering of aluminium alloys .....	72
F. Gemse, S. Dahms and S. Jahn, Jena/DE	
Diffusion bonding of aluminum – A review .....	76

## Testing and Design

L. Peguet, V. Lair, E. Mendez and H. Noui, Voreppe/FR	
Development of an electrochemical depth profiling method to optimize the corrosion protection on aluminium clad sheets for automotive heat exchangers .....	80
V. Fedorov, S. Weis and G. Wagner, Chemnitz/DE	
Fatigue behavior of brazed aluminum / stainless steel mixed joints .....	90
<b>List of authors</b> .....	94
