

# Table of contents

Foreword.....	3
1 Technology of electron beam welding.....	5
<b>1.1 Historical outline of electron beam technology.....</b>	<b>5</b>
<b>1.2 Introduction to electron beam welding technology.....</b>	<b>6</b>
<b>1.3 The electron beam generation.....</b>	<b>12</b>
<b>1.4 The deep welding process.....</b>	<b>16</b>
<b>1.5 Electron beam welding machines.....</b>	<b>22</b>
2 Evaluation of the literature investigation with regard to the state of the art in electron beam welding.....	31
<b>2.1 Countries with publications on the subject of electron beam welding.....</b>	<b>31</b>
<b>2.2 Areas of application of electron beam welding.....</b>	<b>31</b>
<b>2.3 The electron beam welding process.....</b>	<b>32</b>
<b>2.4 Materials which are welded with the electron beam.....</b>	<b>33</b>
3 Applications of electron beam technology outside the pure welding applications.....	34
<b>3.1 Electron beam surface modification.....</b>	<b>34</b>
<b>3.2 Electron beam drilling.....</b>	<b>36</b>
<b>3.3 Generative electron beam melting.....</b>	<b>36</b>
<b>3.3.1 Generative electron beam melting of refractory metals.....</b>	<b>36</b>
<b>3.4 Evaluation of the literature about applications of electron beam technology     outside the pure welding applications.....</b>	<b>38</b>
4 Evaluation of the survey.....	39
<b>4.1 Questions.....</b>	<b>39</b>
<b>4.1.1 Questions about your company.....</b>	<b>39</b>
5 Literature.....	70
